terra|nauta 30

Matter of style.

exterior

Thanks to its power, beauty and elegance, the terralnauta 30 is the choice of exceptional sailors who above all love the sea and are in love with its style.

terralnauta is a bold statement of the unique style, cruising luxury and timeless elegance for those set to have the best experience on the water. Beyond the voyage, it generously captures the moments of joy and keeping a promise built in quality. A cruising speed of 24 knots instantly becomes 40 knots when adventure calls. The boat is suitable for entertaining larger groups, providing comfort and space for up to 10 people.

Catalogue terralnauta 30

All the charm of the Italian 'guc' has been utilised in the terra|nauta 30, allowing the crew to feel more in connection with the sea, navigating safely in rough waters. Its high bow is a brand trademark, serving as the protector of sailors in bad weather.

The exterior design retains the recognisable shape of the terra|nauta. The large, open, flat deck gives the boat its personality, and at the same time encourage the sense of having a private beach right in the sea. An obstacle-free stern platform allows getting in and out of the water easily. The spacious cockpit provides relaxed comfort for the crew. T-top offers protection from the sun, while the voyage is equally as comfortable in the cold days with the addition of winter tarps.

Catalogue terra|nauta 30

Large L-shaped bench with an adjustable table dominates the cockpit stern-side, revealing plenty of storage space when open. Bench and table can be converted into a large sunbed, comfortable enough for three persons. Beneath the table, at the centre of the stern, is an easily-accessible storage space, perfect for bulkier items.

Outdoor galley featuring a large fridge, sink and grill is designed to separate the stern area and the skipper's position while ensuring that the skipper is in touch with the crew onboard. Side cabinets are large enough to keep fenders in.

Most spacious interior in the class

Lower deck is accessible via large tinted glass sliding door, revealing an impressive area that sets the terra|nauta 30 apart from the competition. Most spacious interior in the class, with ceiling height of 190 cm, features high quality materials embedded by tailored, hand-made finish. Interior is designed keeping in mind usability and durability to provide a comfortable stay.

Convertible U-shaped sofa with a large table in the middle will provide seating for six- or sleeping for two, three when in bed position – impressive 220 by 230 cm size at widest point.

Kitchen is large enough with another fridge, induction plate (or gas burner) and microwave, has drawers and cabinets for all cooking and dining accessories.

The bathroom has a shower and an automatic silent toilet, drawers for smaller items.

Rear section of the lower deck, right below the stern, consists of a large double bed 160 by 200 cm in size.

Audio system, flat TV and air-conditioner are there to add to the overall comfort.
